

Projects for the next 10 years of Westpark Preserve.

- Playground.
- Nature trail.
- Community Wide Wi-Fi.
- Wide use of solar power.
- High efficiency street lighting.
- Community Garden & fruit trees.
- Neighborhood is safe and secure.
- A lively social life connecting neighbors.
- Website enables greater services to members.
- Enrichment and conservation of our natural areas.
- Recycling opportunity available to all within community.
- A fully implemented readiness plan for natural emergencies.
- Sculptural and other artistic embellishments compliment landscaping.
- All documents related to physical infrastructure are accessible to board.
- Financial stability of Association assured by sound fiscal management. (#1)
- Continued openness and transparency of, and participation in, self governance.
- Widespread use of energy conservation and efficiency measures by homeowners.

Many of the items above can be brought about by board action propelled by community demand, but some are in the province of individual homeowners. Most are goals that can be started now, and fully realized over time.
